- 15 Uttar Pradesh
- 16 Uttarakhand
- 17 West Bengal

Minutes of PAC meeting for the approval of Annual Action Plan for SCD under Dharti Aaba Janjatiya Gram Utkarsh Abhiyan(DA-JGUA)

PAC Meeting was conducted under chairpersonship of Additional Secretary (RJ) on 4th December 2024 at 11.00 am in VC mode from the conference room, Shastri Bhavan. The meeting started with a welcome given to all participants and a brief was given on the need for an annual action plan for awareness generation and counselling (Ac). AS (R.J) stated the need to prepare two types of action plan- one for Centre of Competence and second on counselling and awareness for sickle cell disease. She emphasized the need for CoC to take a lead in the AC in their respective states.

2. AS(RJ) while acknowledging the contribution of Ministry of Health and Family Welfare (MoHFW) in the screening and the treatment support given to the SCD patients, sought their support in reaching out to masses for AC through the vast network of health care providers. Since the state governments did not send the annual action plan, MoTA has prepared a two-month action plan and shared in the meeting for the benefits of all states. The proposed plan has the following structure:

- i. **National level ToT:** MoTA will organize a national level training for state level trainers during the second or third week of December 2024. The respective state health departments will nominate state level trainers who will attend the national ToT. AS (RJ) directed the states to nominate such people as trainers who will be able to devote adequate time for training and will continue to handhold the field staff; this may include a suitable mix of doctors, nursing staff and counsellors in the ratio of 2:1:1. The details of the schedule along with dates will be shared with all state governments in due course. Andhra Pradesh suggested to add a session on the cultural, social and economic aspect of tribal people and how to address this for effective BCC, in the national ToT. A session on dissemination of information and reporting of activities done on Adi Prasasan will also be undertaken.
 - ii. **State level ToT:** The state level ToTs are to be conducted by each state and these trainings to be completed by end of January 2025. The state level trainers who got trained at the national training sessions will lead these training sessions. MoTA will provide a financial assistance of Rs.3 lakhs per state for the same.
 - iii. **District Level Training:** The district level training in all the districts covered under the National sickle cell Anaemia Mission will have to be completed by February 2025. MoTA will provide financial assistance of Rs.1 lakh per district for the same.
 - iv. **Block level Training:** The training of all health workers in the field has to be organized and these may be included in the Annual action Plan of the respective state governments. Once trainings are completed, all states to ensure that ASHA goes to the field and do awareness generation and counselling of SCD patients/SC traits from first week of March.
3. The states were directed to share the proposal for annual action plan in the template shared by MoTA, before the National Training of trainers. For the capturing of the data on the activities, MoTA will discuss with MoHFW in adding modules in the SCD dashboard and prepare tools for capturing the data. A few states have asked to share soft copies of all modules prepared by MoTA, it was informed that these will be shared in e-mail to all states. States were asked to compile the data of SCD cases and traits identified

up to 30th of November and create district, Block, and Village wise, line list of SCD cases/traits, so that it will be easy for the states to allocate them to ASHAs.

4. An initial amount of Rs. 25 lakhs per state for the SCD awareness activities at the grassroot level is allocated for taking up activities. The states should submit their Annual Action Plan (AAP) immediately.
5. It must be ensured that the first visit of ASHA shall begin from the last week of January, 2025. AS (RJ) further explained about the fund flow mechanism under Dharti Abha. MoTA will release the funds to the TWDs and the state TWDs and state NHMs shall take collective decisions on whether the funds should be completely transferred to the state NHMs or to the district NHMs, as per the activity plan. The funds for CoCs will also be routed through the TWDs and the TWDs and the state NHMs/Health Departments shall decide on whether to transfer the funds directly to the institutions or whether the funds should be routed through NHMs.

The meeting ended with vote of thanks.
