

TRAINING ON SEMICONDUCTOR FABRICATION & CHARACTERIZATION

JUNE 18-20

SUPPORTED BY
MINISTRY OF TRIBAL AFFAIRS (MOTA)

ABOUT THE PROGRAM

The Ministry of Tribal Affairs, in collaboration with the Centre for Nano Science and Engineering (CeNSE), IISc, has launched a program to train tribal students and faculty in semiconductor technology, aligned with the India Semiconductor Mission (ISM). The program aims to train 450 students and faculty from tribal communities on semiconductor manufacturing technology.

The training is primarily based on the facilities available at CeNSE, and covers a variety of research topics under the broad umbrella of nano science and engineering.

PROGRAM DETAILS

Foundational Training

Days: 18-20 June, 9 am - 6 pm

Mode: Online

Eligibility:

- Students pursuing (or rising) 4th year of UG Engineering OR pursuing (or rising) 1st year of MSc in the relevant field
- Faculty must be employed in a PG institute of higher learning for science or engineering
